Rise Laptop Stand

About The Product

Elevate your everyday interactions and enhance your laptop set-up. This cleverly designed laptop stand is made to always accompany you in the most subtle way, enabling you to ergonomically improve your posture by working in an optimized 20° viewing angle for an all day comfortable user experience from anywhere.

Why have we created Rise Laptop Stand

- 80% of the Native Union Team works on a laptop, and often complain about back/neck pain. We know that tilting a laptop for better viewing / typing angle can greatly improve that
- We wanted an 'always-on' solution as we didn't want to carry more accessories to your everyday arsenal. The ultra-thin collapsable structure makes it barely noticeable when not in use
- To really hero the straight-up function as well as the beauty of your laptop, we wanted a minimalistic design that is still aesthetically pleasing with its origami inspired architectural folds
- Since none of the existing solutions fulfilled our expectations, we have created Rise

Thoughtfully designed to fit your lifestyle

- Designed in a 20° viewing / typing angle for maintaining an enhanced posture & comfortable use from anywhere
- The magnetic, collapsable design offers a Pull & Go one-hand easy operation and user experience
- Always-on, lightweight & ultra-slim - crafted with premium coated nylon and reinforced glass-fibre panels

Product Specs

Included In The Box:

1 Rise Laptop Stand with re-positionable gel fixture

Product Material:

Reinforced fibreglass core panels with coated nylon and re-positionable sticky gel frame

Compatibility:

- For all 13"-16" laptops*
