

5010

Not everyone has a big space in which to enjoy their favourite music, and not everyone wants a loudspeaker that can't be comfortably positioned on a bookshelf. So Q Acoustics has developed the 5010 bookshelf loudspeaker: small enough to keep a low profile, but with sound big and accomplished enough to draw attention to itself. If you want off-the-scale performance from a discreet, compact and easy-to-position loudspeaker, the 5010 bookshelf speaker fits the bill as nicely as it fits your space.
