The Club 44F, Club 54F, Club 64, Club 864F, Club 964M feature a full, edge-driven silk dome tweeter, which delivers a broader and smoother high frequency response, never-harsh regardless of output level than more commonly used w-domes.

Specified Shallow Design for More Mounting Application (Club 64FSL)
Club 64FSL specified compact design for 6-1/2" that allows them to fit in just about any vehicle on the road today. That means signature JBL sound in more vehicles.

Adjustable Tweeter Output Level (Club 64, 64C, 64CTP)
The Club 64 and Club 64C, Club 64CTP component systems offer a tweeter output level control of 0dB or +3dB to optimize system linearity based on installation location.

The Club 64CTP Component Speaker system not only including the Starfish™ Tweeter Mounting Adapter and I-Mount Tweeter Mounting Kit but also offering the new installation possibility-Tweeter Pod. It is easy to install, more importantly, the tweeter pod can adjust the angle by up and down even after mounting, which allow you to control the acoustic performance on different listening position.

Starfish™ Tweeter Mounting Adapter (Club 64C, 64CTP, 194T)
The Club 64C, Club 64CTP component Speaker system come with the Starfish™ tweeter mounting adapter. The Starfish tweeter mounting adapter allows for easy installation of the tweeter behind factory grilles and in locations such as an A-Pillar. It also provides six break-off mounting tabs to accommodate many mounting configurations. The tweeter can be surface- or flush-mounted. The tweeter can be easily serviced, and doesn't require removing the whole assembly.

I-Mount Tweeter Mounting Kit (Club 64C, 64CTP, 194T)
The I-Mount™ (patent no. 5,859,917) tweeter-mounting system allows easy and versatile installation of tweeters in each of the component systems. It includes a flush cup and surface-mount mounting hardware. With a 1-3/4" cutout and a 1" mounting depth, installation becomes a snap. This allows the tweeter to be flush-mounted and can be angled up to ±40 degrees. Locknuts are included to keep everything in place, and the tweeter can be replaced without removing the whole assembly.
