Fold Laptop Stand

About The Product

Compact, foldable, portable. Elevate remote working wherever your day takes you with an easy-carry laptop stand. This sleek linear structure props up your laptop or tablet at a comfortable tilt to enhance posture and productivity and ensure constant airflow to your device.

Why have we created Fold Laptop Stand

After experiencing the comfort and convenience of our always-on stand, we wanted to create something that worked just as well for all devices, from MacBooks to tablets to laptops with fans that prevent the use of stick-on accessories. Fold Laptop Stand translates the main draws of Rise Laptop Stand – its ultra-thin, lightweight, always-with-you form – into a foldable, just as mobile aluminum solution and probably the sleekest metal laptop stand you've seen.

Thoughtfully designed to fit your lifestyle

- Ergonomic, elevated design for optimized 15° viewing angle and improved posture
- Lightweight & ultra-slim form folds flat to carry with you wherever your devices go
- Crafted with durable aluminum & non-slip silicone pads for enhanced stability
- Sleek cross structure works with all laptops & tablets
- Comes with a carry pouch to prevent scratching while on-the-move
- Thin design enables air circulation & device cooling
