

# Breathe In, the Future is Bright.

## **Breathe in a Bright New World**

You battle your way through the city: overwhelming exhaust fumes, cigarette smoke, coughing people, endless work — all contributing to the invisible enemy: air pollution. Then you cross your doorstep and breathe. The air is fresh, clean, flawless...Bright. Thanks to its exceptional cleaning capacity, the Bright 2 Smart Air Purifier captures 99.97% of ultra-fine airborne particles and harmful impurities, helping even the worst asthma and allergy sufferers. Stylishly compact and portable, it connects to the free Duux app.

## **Breathe in a Bright New World**

Walking, driving, biking, you are constantly surrounded by the invisible enemy: air pollution. Until you cross your doorstep and breathe: clean, pure, Bright. The stylishly portable Bright 2 Smart Air Purifier captures 99.97% of impurities, helping even the worst asthma and allergy sufferers.

## **The Luxe and Compact Bright**

Bright has the luxurious, minimalistic design you'd come to expect from Duux, with a rounded, organic feel and matte finish. Available in black or white, this compact air purifier can go where you do. This smart device is also WiFi enabled to connect with the free Duux smartphone app.

## **A Big Impact with a Small Footprint**

Bright 2's HEPA H13, Activated Carbon and Pre-filter removes up to 99.97% of air impurities in rooms up to 28 m<sup>2</sup>. The highly efficient built-in ionizer accelerates the cleaning process to capture even the tiniest dust particles, chemicals, pollutants and allergens. With auto mode and three manual speed settings, it ensures multiple air changes per hour (ACH), making a big impact with a small footprint.

## **Self-Adjusting for Peace of Mind**

The air quality sensor measures the air in your home to ensure harmful pollutants and other dangerous particulates, like PM2.5, are detected and filtered out, and automatically adjusts when necessary (1/30 the width of a human hair, PM2.5 is a 2.5 micrometer particulate that can cause major health problems). The air quality indicator displays the status and blinks when the filter needs to be replaced. A timer allows for auto shutoff and the night mode provides silent operation and a darkened display.

## **Control at the Touch of Your Phone**

The Wifi enabled Bright 2 allows you to use your smartphone, via the free Duux app, as a remote control to monitor the air quality status and check or change your settings. Alternatively, use the intuitive touch display with clear LED indicators or activate voice assistants like Alexa or Google Assistant to manage your Bright for you.

## **Meets the highest quality standards**

At Duux, we value quality and integrity, which is why our products are independently tested. Bright 2 is officially certified by the leading German research institute IUTA at a Clean Air Delivery Rate (CADR) of at least 210m<sup>3</sup>/hr. This is tested through measurements that compare the reduction in particle concentration with and without the air purifier.

## **Specifications:**

- Dimensions – 22 x 22 x 38 cm
- Weight – 2.9 kg
- Power consumption – 4-21 W
- Noise level – 31-55 dB
- Clean Air Delivery Rate (CADR) – 210 m<sup>3</sup>/hr
- Effective area – Up to 28 m<sup>2</sup>, based on three air changes per hour (ACH)
- Removal efficiency – Up to 99,97%
- HEPA class H13 filter (highest HEPA filter grade)
- Activated carbon filter
- Three speed settings
- Auto mode
- Night mode
- 2, 4, 6 and 8 hour timer modes
- Filter replacement indicator
- LED display
- Air quality indicator
- PM2.5 sensor
- Built-in ionizer
- Includes free Duux app (available in App store and Google Play store)
- Compatible with voice assistants (Google Assistant and Amazon Alexa)

**Sold separately:**

- Replacement HEPA and activated carbon filter
