

CITY GRIP

CITY GRIP

About The Product

The shorter, wrist edition of City Sling lets you carry worry-free an extra layer of security against drops and falls for when you're making a call, snapping memories, or strolling around the city.

Why have we created City Grip?

We all have our favorite ways to carry, so we wanted to design a solution that caters to those who want the extra security of a strap without the wearable element or extended length. That's why designed City Grip. This year's range of phone straps features a refreshed palette of Lemon, Slate Green, Navy, Sand Stone, and Apricot Crush, in addition to Black and Kraft. Softer shades for a more sustainable and timeless appeal.

Thoughtfully designed to fit your lifestyle

- Compatible with most phone cases
- Pair with (Re)Classic Case, (Re)Clear Case or Active Case
- Versatile carry: attach easily to closed-bottom cases via the adapter & just unclip to go Sling-free
- Built to last with a durable construction that keeps your phone safe & secure
- Comfortable wrist-wear with thicker straps & optimized length for flexible, hassle-free use
- Made better for the Earth with a 100% recycled polyester strap made from plastic bottles
- Personalize your carry with seven unique colors
