

## IMILAB EC6 Dual Pro 3K+3K WiFi Plug-in Spotlight Camera

# Go pro with dual-lens security.

## INTRODUCTION

The IMILAB EC6 Dual Pro is an upgraded dual-lens spotlight camera that delivers two 3K surveillance feeds via smart app. The lower lens offers a 360° surveillance angle for automatic tracking, while the upper lens remains fixed to avoid distractions. It supports voice assistants for intelligent voice control and ONVIF compatibility, making it easy to set up and connect with your home.

## FEATURES

### Dual Angle Surveillance

Two live surveillance feeds at the same time.

### Versatile Installation

Flexible installation and network connection choice.

### 3K+3K Live View & Chat

Clear footage with real-time connectivity, day or night.

### Flexible Footage Storage

Allows for 24/7 recording with local footage storage.

### Smart Deterrence

Detects and reacts to people and vehicles without additional fees.

### Voice Assistants

Hands-free interaction with Google Assistant and Amazon Alexa.

### App Connection

Get real-time notifications and more customizations.

### Broad Compatibility

Compatible with your ONVIF-compliant products.
