

MOVA

E20

Navigate seamlessly, clean confidently

Mova E20

Robot Vacuum and Mop

E20 features advanced laser sensors for precise positioning and accurate mapping, ensuring efficient cleaning with 360° scanning. Easily overcomes obstacles up to 18mm, smoothly transitions between rooms, and avoids stair falls with a cliff sensor. E20's powerful 5,000Pa suction and 2-in-1 cleaning and mopping, with adjustable water flow, deliver a thorough and hassle-free cleaning performance.

Key Features

Smart Pathfinder™ Technology

The advanced Smart Pathfinder™ technology with LDS laser precisely scans and maps your home, performing effectively even in darkness. E20 navigates accurately, slowing down near obstacles to ensure a thorough and careful cleaning process.

5,000Pa Vormax™ Suction

E20 boasts a powerful 5,000Pa* suction, easily absorbing debris and particles, leaving your floors spotless.

*5,000Pa: Based on our in-house lab data. Actual performance may vary depending on the real-world environment and usage.

Vacuums and Mops 2-in-1

E20 combines vacuuming and mopping with a large 245ml water tank, providing three water flow levels to ensure spotless floors throughout your home.

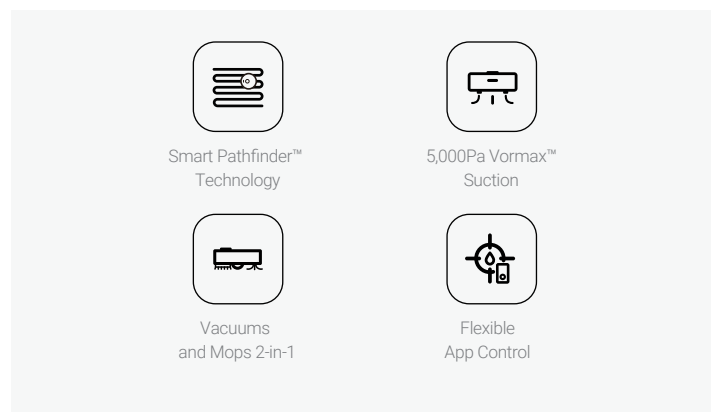

Flexible App Control

Personalize cleaning with customizable modes, suction, patterns, and schedules. Save up to 3 floor maps, and set no-mop zones and virtual boundaries for precise control.

Specifications

Product Dimensions	320 x 320 x 96mm (12.6 x 12.6 x 3.8in)
Weight Robot Vacuum	2.8kg (6.2 lbs)
Maximum Suction	5,000Pa
Battery Capacity	3,200mAh
Water Tank Volume	245ml
Dust Box Volume	330ml
Threshold Crossing	18mm (0.71in)
Main Brush	V-Shape Brush
Mop Type	Flat Mop Pad

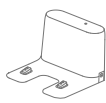

Functions

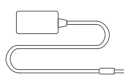

What's in the Box

Robot x 1

Charging Dock x 1

Power Adapter x 1

Side Brush x 1

Mop Pad Holder x 1

User Manual x 1
